

Hello neighbors! My name is Wolfgang Sigmund, and together with my husband David McKinney and our two dogs, Buddy and Tango, we recently made the Seasons at Tiara Rado our permanent home. I look forward to sharing in the life of this wonderful community.

As a newly retired Professor Emeritus in Engineering at the University of Florida, my career centered on bringing people together—from students and researchers in classrooms and labs, global collaborative projects, leading teams to secure \$28 million in research grants, and procuring over 220 publications and more than 60 patents.

Born in Germany and educated at the University of Heidelberg, I've called many places home, but I am excited to settle here and get involved. My background in working with diverse groups and my lifelong dedication to problem-solving and innovation make me eager to listen to your concerns, support our shared goals, and help strengthen our community at Tiara Rado.

I look forward to meeting more of you, hearing your ideas, and serving our neighborhood.
