

Bio: Don Fry

I hope this will serve as a brief introduction to any who do not yet know me. My wife, Gay, and I have now lived in the Seasons for just about four years. We think it is a wonderful place to live, for the people and the special location. My background of ~40 years as a geophysicist with energy companies has led us to move 28 times. We are thankful to be in what we hope will be our long-term home.

Prior to moving here, I served for four years on the HOA board, two as president, in our last neighborhood in McKinney, TX. Though not as large a neighborhood, we dealt with problems large and small with that commitment. Gay and I have tried to be involved here already in helping with the Welcome Neighbors group, various projects, and in co-sponsoring the Oktoberfest parties, and one Christmas party.

My hope is to offer any experience and skills I may have to help the HOA board with its commitment to all those who live here. I do admire what I have seen in the present board's accomplishments and want to move forward in that same spirit.
